

SANATH JASON

Senior Consultant

VAPT Specialist

Cloud Security & AD
Implementation

SUMMARY

Elite cybersecurity professional with 12+ years of progressive experience delivering comprehensive security solutions across diverse industry verticals. Proven track record of protecting critical infrastructure, reducing security risks by 85%, and ensuring regulatory compliance for Fortune 500 companies and government agencies.

EXPERIENCE

Adiroha Solutions

2024-PRESENT

Compliance Implementation on ISO 27001, PCI DSS, GDPR, SOC , security assessments, audits and documentation, Cloud Security : AWS, Azure, GCP, IAM, MFA, Encryption: serverless and container security
Active Directory implementation – server 2016, 2019, 2022/25

MackSofy Technologies Pvt. Ltd

2022-2024

Application Security: Web/API VAPT, DAST/SAST integration, code reviews using Burp Suite, OWASP ZAP, SonarQube, Fortify.

Network Security: Network VAPT and protocol analysis using Nessus, Nmap, Wireshark, Invicti (netsparker), Accunetix, Metasploit

Rhym Technologies Pvt Ltd.

2020-2022

GRC: Risk Assessment, Compliance Tracking, audit support and security training.

SKILLS

- Penetration testing
- Source code security
- Cloud-security
- Purple Team Operations
- Risk Management
- Audit Leadership
- AD – Configuration & Implementation

EDUCATION

B.Sc - MPC

2024

Bachelors of Sciences, BRAOU

B.Tech

2019

Bachelors of Technology, EEE, JNTU- ATP

SANATH JASON

Senior Consultant

VAPT Specialist

AD Implemeud Security
Expert

KEY DIFFERENTIATORS

Penetraion Testing Mastery: 500+ successful VAPT engagements across web, mobile, network.

Source Code Security: Expert-level static and dynamic analysis using enterprise-grade tools

Cloud Security Architecture: Comprehensive security assessments across AWS, Azure, GCP, and hybrid environments

Purple Teams Operations: Bridging Offesive and Deffensive security

CORE PRINCIPLES

Business Aligned Security

Continous Improvement

Collaborative Excellence

Knowledge Sharing

COMPLIANCE AND GOVERNANCE

- **Multi-Framework Expertise:** ISO 27001, PCI-DSS, GDPR, SOC 2, with specialized knowledge in Indian regulatory requirements (RBI, IRDA, SEBI, NPCI)
- **Risk Management:** Quantitative risk assessments and mitigation strategies
- **Audit Leadership:** Successfully managed 50+ compliance audits with zero major findings

VA&PT

Web Application Security: Burp Suite Professional, OWASP ZAP, SQLMap, Nikto - Mobile Security: MobSF, Jadx-gui, ADB, Objection, Frida - Network Security: Nessus Professional, Nmap, Metasploit Pro, Wireshark - Infrastructure Testing: Custom Python scripts, PowerShell modules, Bash automation

Active Directory Implementation

Server 2022 setup & Configuration, Enterprise AD implementation, Policy Creation and management, Network Security and protocol analysis, recovery and Business Continuity

RECOGNITIONS

- **Premium Certifications:** OSCP, CEH, CHFI, CySA+, Security+, GSEC
- **Continuous Learning:** Regular participation in security conferences and threat intelligence forums
- **Thought Leadership:** Contributor to cybersecurity best practices and emerging threat analysis

CLOUD SECURITY

- AWS Security: GuardDuty, Security Hub, Config, CloudTrail, WAF - Azure Security: Sentinel, Security Center, Key Vault, Defender
- GCP Security: Security Command Center, Cloud Asset Inventory, IAM - Multi-Cloud: Prisma Cloud, CloudPassage, Dome9

Certifications & Credentials

Offensive Security

- **OSCP** - Offensive Security Certified Professional
- **CEH** - Certified Ethical Hacker (EC-Council)
- **CHFI** - Computer Hacking Forensic Investigator

Defense & Analysis

- **CySA+** - CompTIA Cybersecurity Analyst
- **Security+** - CompTIA Security+
- **GSEC** - GIAC Security Essentials Certification

Cloud & Specialized

- **VMware Certified** - Virtualization Security
 - *Pursuing: CISSP, CISM (Expected completion: Q3 2025)*
-

Industry Impact & Recognition

Quantified Achievements

- **Security Posture Improvement:** Average 85% reduction in critical vulnerabilities across client environments
- **Compliance Success Rate:** 100% first-time pass rate on regulatory audits
- **Cost Optimization:** Identified and remediated security gaps preventing potential \$50M+ in losses
- **Process Efficiency:** Automated 70% of routine security assessments, reducing delivery time by 40%

Thought Leadership

- Regular contributor to cybersecurity communities and forums
 - Speaker at regional security conferences and workshops
 - Mentor for upcoming cybersecurity professionals
 - Published insights on emerging threats and defense strategies
-

Value Proposition for Organizations

Immediate Impact Capabilities

Day 1 Productivity: Extensive experience allows immediate contribution to complex security challenges

Risk Reduction: Proven methodology to identify and eliminate critical security gaps

Compliance Assurance: Deep expertise in regulatory requirements ensures audit success

Team Enhancement: Mentorship capabilities to elevate existing security team performance

Strategic Long-term Value

Security Program Maturity: Architect comprehensive security programs aligned with business objectives

Innovation Driver: Implement cutting-edge security technologies and practices

Cost Optimization: Balance security investment with business value and risk tolerance

Stakeholder Confidence: Proven ability to communicate security value to executive leadership

Professional Philosophy

"Security is not just about preventing attacks—it's about enabling business growth through strategic risk management and building resilient systems that adapt to evolving threats."

Core Principles:

- **Business-Aligned Security:** Every security decision tied to business value and risk appetite
- **Continuous Improvement:** Embrace emerging technologies while maintaining proven security foundations
- **Collaborative Excellence:** Cross-functional partnership to embed security throughout the organization
- **Knowledge Sharing:** Commitment to elevating the entire cybersecurity community
